## GX-HDMI/U2

Easy-to-use HDMI Display Adapter

■ Easy connection between your computer and a TV

Adding an extra screen to your computer could be troublesome. However, with this adapter, you can save all the works only by connecting it with a HDMI cable. Moreover, it provides up to 1080p video resolution (full HD). Now you can play full HD videos on your computer and watch it on your full HDTV.

* Audio output can only be streamed either to the computer or to the TV. Simultaneously audio output from both screens is not available.
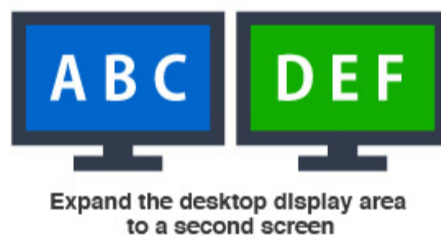

■ Audio-Video synchronization

When streaming from a computer to another screen, the audio and video are sometimes out of sync. This adapter has solved this problem and ensuring synchronized playback even when viewing for long periods.

Use your TV to view videos and pictures saved on your computer

GX-HDMI/U2

Video/Audio output | USB2.0 port | Full HD Support | Display Rotation | 1 YEAR WARRANTY

■ Multi-display modes

Mirror Mode

"Mirror Mode" duplicates the main display on a second screen. It makes it easy to watch photos or on-line videos saved in your computer with your family and friends on a TV screen.

Expand the desktop display area to a second screen

Expand Mode

"Expand Mode" expands your desktop to the second screen. For example, you can have a whole picture on a TV screen while you are editing the photos on a computer screen.

Show same content on each monitor

Features

- **Compact and lightweight**
