

HDW-PDU3 Series 1TB

Expand your smartphone or tablet's capacity

■ Carry video, music, photos, and recorded TV programs along with your smartphone

Take the MiniStation™ Air along wherever you go and enjoy videos, photos, music, and other data stored on your computers—even TV programs saved to recorders—anywhere, anytime. Store your data on the MiniStation™ Air and access it whenever you want, as much as you want, with no mobile phone line required. Sharing data between smartphones and tablets is also incredibly easy.

■ Supports DLNA

The MiniStation™ Air features a "DLNA server function" that lets you play your videos, photos, and music data on TVs, audio systems, and digital home appliances. Use smart TVs and media recorders, audio players, and other DLNA playback devices to stream multimedia content stored on the MiniStation™ Air. Share the videos you watch on your smartphone screen with others on any living room wide-screen TV.

■ Hard drive wirelessly connects to smartphones and tablets

This portable hard drive connects to smartphones and tablets via Wi-Fi. The huge storage capacity and built-in battery mean you can take video, music, photos, and other files with you without having to worry about your smartphone or tablet's capacity—enjoy the data saved to the hard drive all you want, anywhere. You can also use the hard drive to store videos and photos you take and music you download with your smartphone. This instantly eliminates smartphone and tablet storage problems.

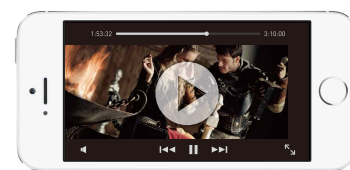

**Connect directly via Wi-Fi -
No more worries about poor signal
reception or data limits**

- Works even when reception is unstable
- Functions with Wi-Fi-only devices
- Connects even when in your bag or pocket

■ Bus-powered storage also provides powerbank function

Away from home or the office with your smartphone battery running out of power? Rest easy—just connect it with a USB cable and use the MiniStation™ Air as an "emergency power supply," even while you are on the go.

The MiniStation™ Air includes an internal battery. Charge the battery ahead of time, then switch it on whenever you need to use it. Enjoy approximately 12 hours of continuous video playback, even with no AC adapter or connector cable supplying power.

**Provides approximately one
full charge (for iPhone 5s)**

**Up to approximately 12 hours
of continuous video playback**

* Enables continuous playback of six 2-hour video files at 500 kbps using the "MiniStation Air 2" app, with the battery 100% charged, power management set to Balance mode, and preload function used.

■ Easy-to-use mobile apps for intuitive operation

You can use the free "MiniStationAir2" smartphone/tablet app to set up and access the MiniStation™ Air. Operation is simple, with content displayed in thumbnail lists. The intuitive interface also makes connection and drive settings easy.

Features

- Wi-Fi (IEEE802.11n/g/b) and super speed USB 3.0 (up to 5 Gbps) interfaces
- 1TB capacity
- Internet mode
- Multi-user connection
