

## RUF3-HS series

RUF3-HS Series USB flash memory products feature hardware-based forced data encryption.

All data saved to the flash memory is encrypted, which prevents the data leakage if the drive is ever lost or stolen. There is no need to install any security software, either, so it's easy to use with most any OS.

### Compatible with security management software (optional)

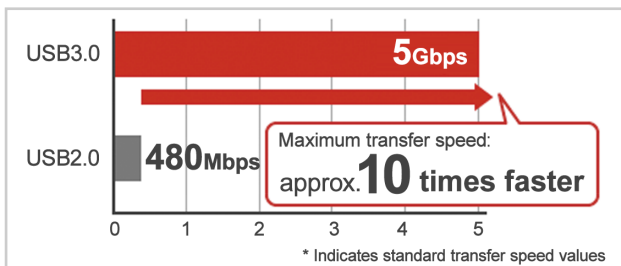

System administrators can use Buffalo's optional RUF2-HSC-MGR "SecureLock Manager 2" USB memory management software to set up RUF3-HS drives to conform to the company's own password policies and other security settings. This helps ensure thorough compliance with the company's working rules. SecureLock Manager 2 includes password policy settings, password recovery, log function, and more.

\* Use with RUF3-HS Series requires SecureLock Manager 2.

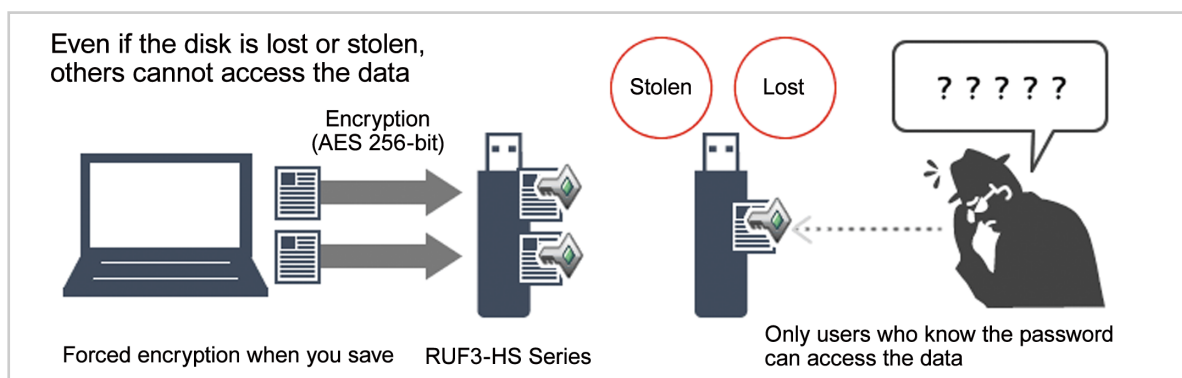

### USB 3.0 handles huge amounts of data easily

USB 3.0-supported devices capable of high-speed data transfers can increase your work efficiency tremendously. Using USB 3.0 for the RUF3-HS Series security functions makes it perfect for business models that involve handling of critical data.

### Strong forced hardware encryption

Since any data saved to the RUF3-HS is force-encrypted, you never need to worry about encryption hassles or forgetting to encrypt the data. Access to the RUF3-HS also requires password authentication. Even if the drive is ever lost or stolen, the combination of forced encryption and password authentication prevents leakage of your vital data.

### Password authentication prevents unauthorized access

The RUF3-HS Series features password-based security to prevent use by third parties. Only those persons who know the password can use the RUF3-HS, so you can save your data with confidence. After authentication with the password is completed, you can save and edit the files just as you would on an ordinary USB drive.

## Features

- Supports security management software (optional)
- USB 3.0 support
- Strong forced encryption function
- Capless design
- Includes strap hole

## Specifications

### Drive Capacity

Black	RUF3-HS4G	4GB
	RUF3-HS8G	8GB
	RUF3-HS16G	16GB
	RUF3-HS32G	32GB

### USB Interface

Standard Compliance	USB 2.0 / USB 3.0
Number of Ports	1
Connector Type	USB Type A
Data Transfer Rates	Max. 5 Gbps

### Key Feature

Hardware Data Encryption	✓	Virus Check	-
--------------------------	---	-------------	---

### OS Support

		Windows 8.1 / 8 (32/64-bit), 7 (32/64-bit), Vista (32/64-bit), XP	Mac OS X 10.4, 10.5, 10.6, 10.7, 10.8
Connection	USB 2.0	✓	-
	USB 3.0	✓	-

### Others

Dimensions (LxWxH, mm)	55 x 21 x 9
Weight	10 g
Operating Environment	0-40°C, 10-85% (non-condensing)
Power Supply	DC 5V±5% (USB powered)
Warranty	1-year
