

WMR-433-BK

Buffalo's AirStation™ AC433 Wireless Travel Router WMR-433-BK is a compact solution that allows users to set up a personal, high-speed wireless network wherever they go. Ideal for business and personal travel, WMR-433-BK shares wired and wireless connections, offering selectable dual band operation. Easily connect your favorite Wi-Fi devices, such as tablets, smartphones and game consoles to a secure, personal Wi-Fi network anytime on-the-go.

■ Create a personal Wi-Fi hotspot

Use AirStation™ AC433 Travel Router to create a private Wi-Fi hotspot using an existing wireless connection, and share it with multiple wireless devices at one time.

■ Fast 802.11ac

AirStation™ AC433 Travel Router features high-speed 802.11ac connectivity, for speeds up to 433 Mbps.

■ Selectable dual band connectivity

Convenient selectable dual band operation lets you choose between low interference 11ac networking on the 5 GHz or the more common 11n on the 2.4 GHz band for greater flexibility and compatibility.

■ Save money on per-device Wi-Fi connection fees

Avoid paying extra on hotel Wi-Fi connection fees by sharing a private wireless network or Wi-Fi hotspot with multiple wireless devices at one time.

■ Easy setup and configuration with WPS support

With WPS support and simple configuration, users can set up and secure a personal Wi-Fi network in minutes using the step-by-step quick setup guide.

Features

- Save on hotel Wi-Fi fees by connecting multiple devices to your own Wi-Fi network
- Set up a personal Wi-Fi hotspot
- 11ac connectivity for transfer speeds up to 433 Mbps
- 11n support with speeds up to 150 Mbps
