## Access Your Files from Anywhere, Any Device

### WebAccess applications for your smartphone and tablet device

Web Access applications for iPhone, iPad, and Android smartphone and tablet allow you to use LinkStation as a smartphone storage. WebAccess let you:

- Access to your own LinkStation easily from anywhere anytime via the Internet.
- Listen to music, look at photos and videos saved on LinkStation at home.
- Upload photos and videos taken with your smartphone to LinkStation. No more worry on smartphone's memory capacity.
- Save files directly on your smartphone from your LinkStation. Download movies and music files before your long flight and enjoy them in the air.

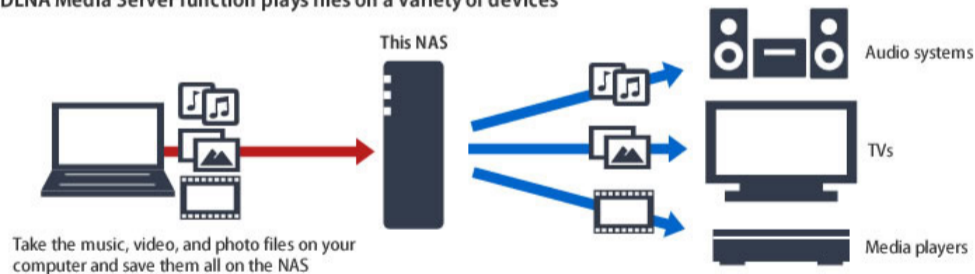

### Share your files anytime with others

Photo and video share is easier than ever! You don't need to send photo and video to your friend via email attachment anymore. WebAccess creates a shared link for files you want to share with your family and friends. Just send the link to them, and they can enjoy shared files using their smartphone and computer.

### DLNA streaming server saves storage space on your devices

DLNA Media Server function plays files on a variety of devices

DLNA certified Media Server lets you stream your video files and play music on any DLNA certified device such as networked TVs. For instance, enjoy watching contents on a large-screen TVs with family and friends.
